Lusac®

- Los pistones LUSAC de duraluminio dejan obsoletos a aquellos hechos de baquelita que se desmoronan.
- El duraluminio proporciona una excelente calidad para trabajos en condiciones de alta presión y temperatura
 - Pistones de alta resistencia al desgaste
 - Material con recubrimiento especial de anodizado que garantiza mayor durabilidad del producto
 - La gran mayoría de plantas ensambladoras de vehículos a partir de 1998 tienen pistón de Duraluminio. Frenos LUSAC los ha fabricado desde 1984
